## Download Stencyl Pro Full Version ^HOT^

Aug 22, 2019 - If you want to publish a game to the App Store, you have to invest in a Pro license - and publish a game from a Mac - and the same is true ... For Android. This is the new path for all Flash-based games as well as Unity 3D. Starting next month, the Android App Store and Apple Store for Android will be closed to games that use Flash as their game engine. Google announced this on its blog today, explaining that Android app developers will no longer be able to publish apps that use flash as a game engine. "We have updated our terms of use to include this requirement.
